

Press Release

Environmental Award for Princebuild Ltd

Following an assessment by an independent body, Princebuild Ltd has been awarded BS EN ISO 14001 certification. This certification has only been achieved by less than 1% of UK businesses and this prestigious award is supported by the Government and recognised world-wide.

Said a delighted Mark Asplin "We have always been proud of the service we offer our Clients and the way we conduct our business with regard to environmental matters. Our working practices and policies have been scrutinised by outside experts who are used to judging standards on a daily basis in a wide variety of trades and industries. The award of BS EN ISO4001 certification is confirmation that our procedures and policies are adhered to and we are delighted that our application was successful."

Stuart Clark, who undertook the assessment for QMS Quality Management Systems, paid particular tribute to "the investment in people and training that enables Princebuild Ltd to provide an efficient and environmentally friendly service to their customers."
