

Press Release

Laura Pell – Apprenticeship Success & Award

Laura joined Princebuild Ltd in August 2006 as an Apprentice Electrician at the age of 18 under our equal opportunities policy.

Laura progressed with her studies in Electro-Technical Technology at Boston College and three years later, just 6 days before her 21st birthday, Laura successfully completed her apprenticeship.

In April of this year Laura, together with more than 160 other applicants, entered the annual Lincolnshire and Rutland Work Based Learning Awards. We are delighted to announce that Laura won the Apprentice of the Year Award – Advanced Apprenticeship, a magnificent achievement which deserves the highest praise and our congratulations.

Laura has now started her career in earnest with Princebuild Ltd, being issued with her own company van and working on site as a fully qualified electrician.

Well Done, Laura.
