

PRINCEBUILD

meeting your property needs... today

Covid-19 Workplace Protection Solutions
Providing Safe Working Environments for Everyone

Tried, tested and trusted for more than 45 years

Princebuild Limited is a family-run business that has been caring for, maintaining and building properties since 1971.

We specialise in providing a diverse range of services across the construction industry and our business is made up of eight key divisions: Construction, Refurbishment, Insurance, Small Works, Cleaning, Maintenance, Building Services and Renewables.

Our company was founded in Peterborough, where we still have our head office today. Over the years we have expanded our operational area to cover the entire East of England, London and the Midlands.

In addition to our Peterborough office we also have offices located in: Spalding, Market Rasen, Northampton and London

We currently employ more than 220 people to help us achieve the aims of our business and to deliver the excellent levels of service that our customers have come to expect.

Coronavirus (Covid-19) has brought significant change to the world and new challenges for businesses to operate normally whilst protecting their employees, customers and members of the public from the spread of the infection. Princebuild has responded swiftly to this need to help bring a new normal to the daily routine of businesses and we are pleased to launch our range of new workplace protection solutions.

Preventing the Spread of Covid-19 Infection

Princebuild is pleased to launch a comprehensive range of solutions to assist our clients in protecting their employees and the general public from the spread of Covid-19.

The Safeguard products are designed to enhance social distancing measures and ensure safe and hygienic environments can be maintained. They are ideal for use in retail environments, hospitals, workplaces and any other high-risk locations with human interaction.

Our solutions offer peace of mind for any business that is continuing to operate through the Covid-19 pandemic or for businesses currently reviewing and preparing their work space for a safe return to work.

Our specialist solutions include:

- » Hygiene Isolation Walls
- » Hygiene Screens/Guards
- » Collection Points
- » Social Distancing Barriers
- » Sanitiser Stations
- » Signage
- » Body Temperature Detection Systems
- » Hygienic Wall Panels and Safety Flooring

Hygiene Isolation Walls

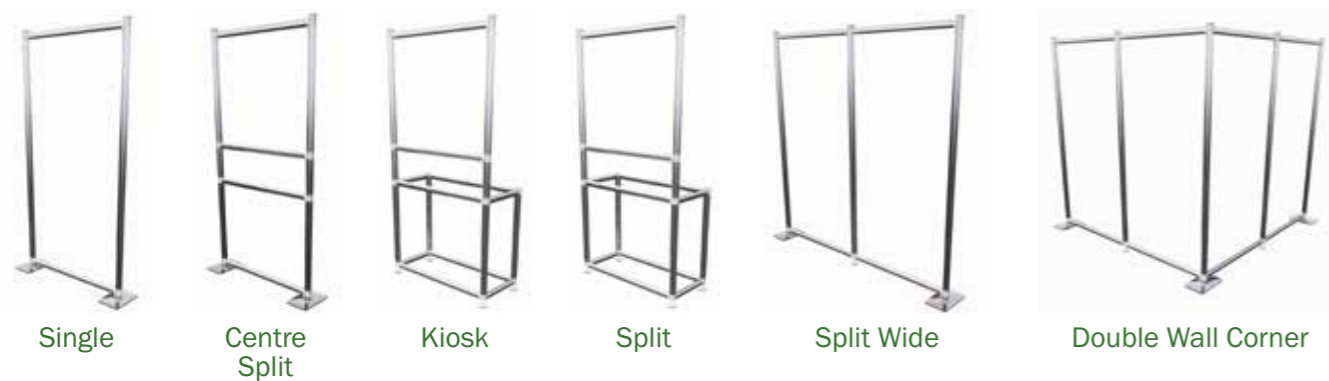

Hygiene Isolation Walls

Isolation walls can be used as part of a modular system to create safe spaces in any area. The modular system allows multiple walls to be connected together in various configurations to suit your requirements.

As the system is quick and tool free to assemble you also have the benefit of being able to change the layout as your needs evolve. It is also possible to add to the system at a later date should this be required.

- » Connect multiple walls together to create safe spaces
- » Hygiene friendly partitions
- » Add wheels for mobile walls ideal for high risk environments
- » Installed in minutes using only a twist and lock motion

The hygiene wall system also features panel variations to suit any environment and all panels can be transparent or opaque and feature your own branding or instructional signage as required.

Just some of the features of our hygiene isolation walls are:

- » Hinged panels
- » Kiosk panels
- » Split panels
- » Wheeled panels

Wheeled

Corner Wide

Centre Split Wide

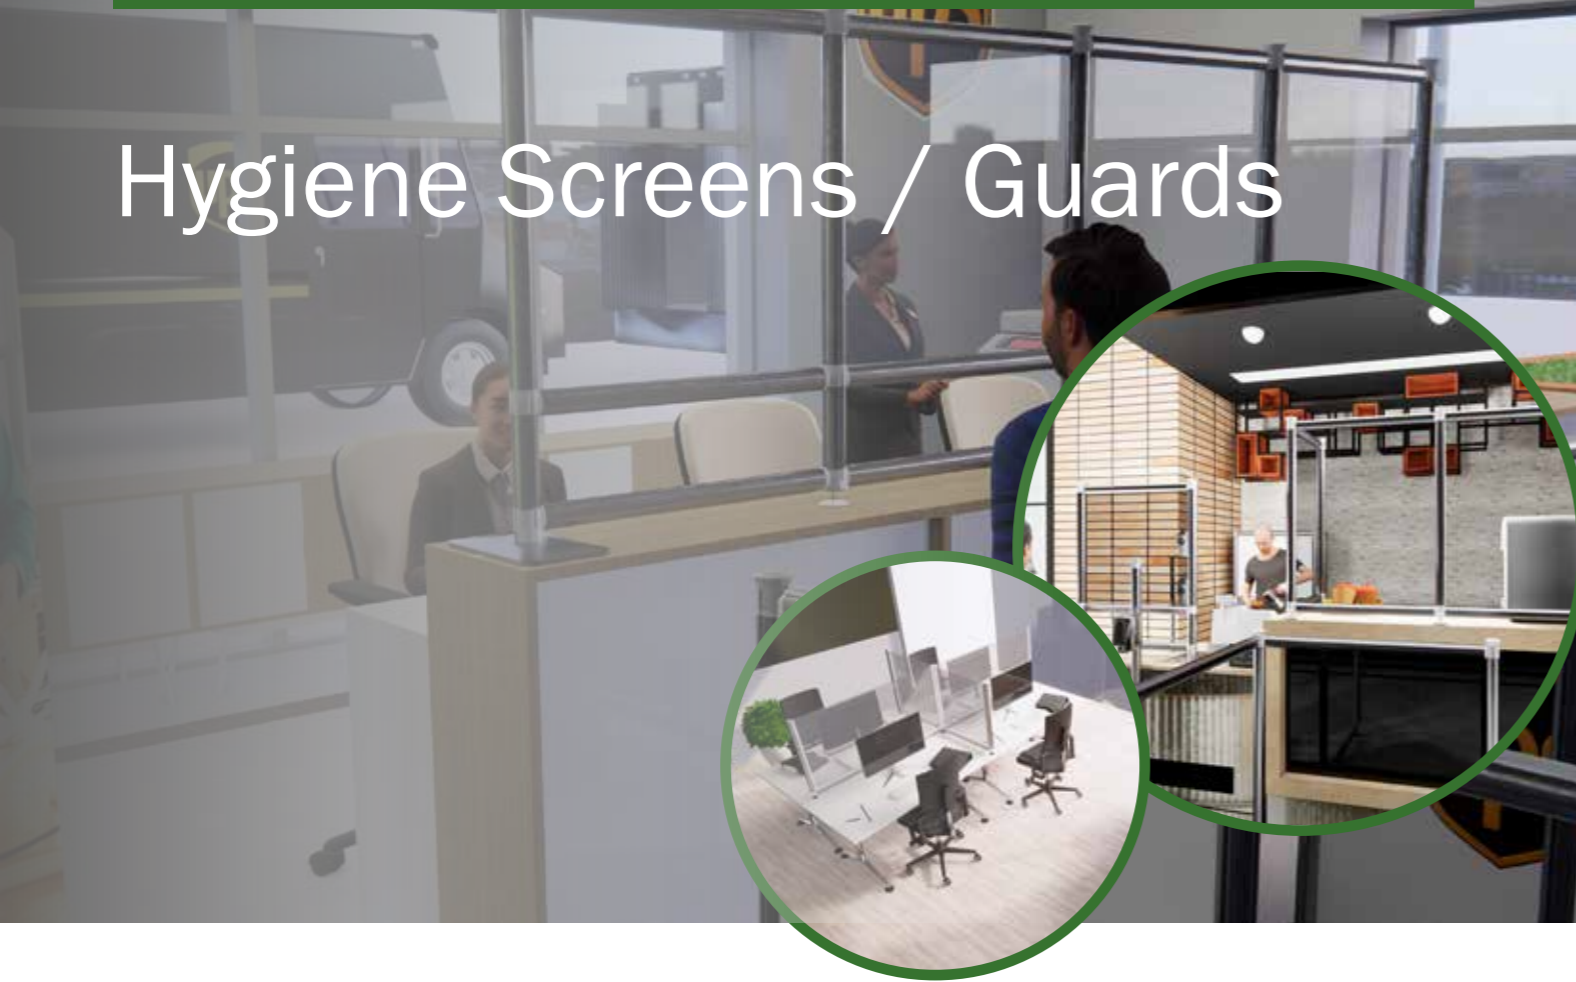

Hinged

You can even add some light to your structures with the use of our purpose built spot lights.

Hygiene Screens / Guards

Hygiene Screens / Guards

Hygiene screens and guards can be implemented in situations where social distancing is difficult to implement and interaction is still required. These screens are invaluable at checkouts and till areas, as well as at reception desks and in office situations.

They can be fitted in almost any area and be connected and configured to fit your space perfectly providing the highest level of protection.

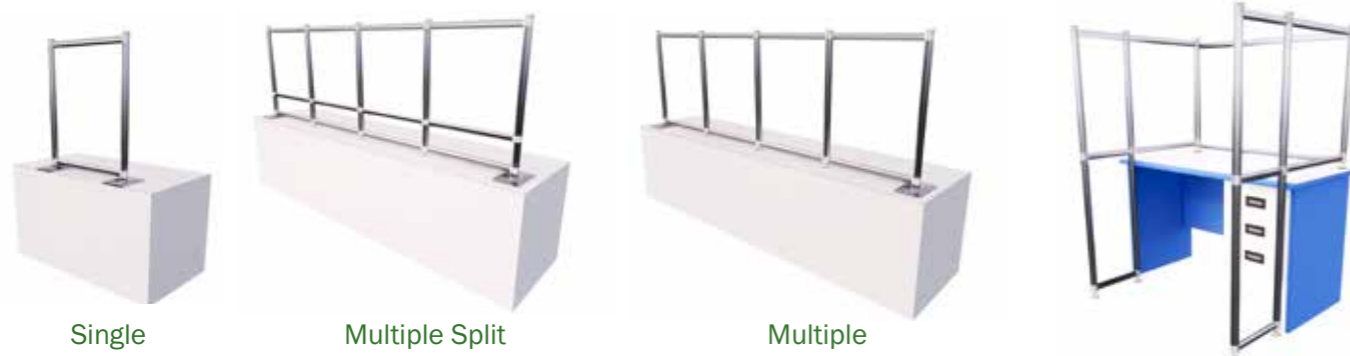

The hygiene screens can also feature slots or split screens to facilitate the exchange of paperwork or items such as prescriptions in the healthcare environment.

As with the hygiene wall panels, these items can be transparent or opaque and feature your own branding or instructional signage as required.

- » Mobile wash down screens ideal for retail environments
- » Connect multiple screens together to meet any size requirement
- » Bespoke branding and printing available
- » Installed in minutes using only a twist and lock motion

Standalone

Collection Points

Collection Points

With the increased need for the contactless collection of goods we have designed a self-contained unit which can be used as a collection point in any area, indoors or out.

The units can be created to fit your needs are easy to move or reconfigure and can also serve as a prominent advertising or branding space.

- » Can be Installed around a designated area
- » Transparent or blocked out panels available
- » Ideal for goods collection stations

Social Distancing Barriers

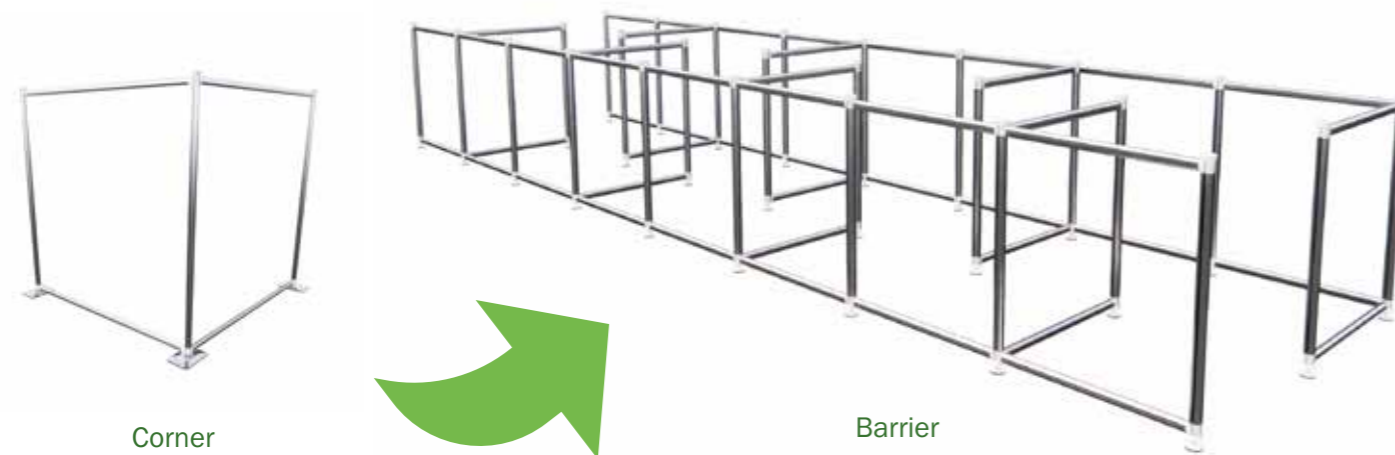

Social Distancing Barriers

The increased requirement to manage queues whilst maintaining social distancing can easily be managed by these specially designed barriers.

The partitions are spaced at two meters apart and form a physical barrier to ensure social distancing is maintained at all times.

These units can be used inside or out and are perfect for retail environments or anywhere a queue is likely to form on a regular basis.

- » Connect multiple units together to meet any size requirement
- » Bespoke branding and printing available
- » Physical solution queue management
- » Easily cleaned and disinfected

Sanitiser Stations

Sanitiser Stations

These easy to install hand sanitiser stations can be placed anywhere and can also feature signage or even illumination to make them stand out and ensure they are used.

When providing hand wash facilities is just not possible these handy totems help to ensure hygiene standards are maintained for everyone's safety.

- » Quick and simple unit to dispense sanitiser
- » Add information and branding where appropriate
- » Installed in minutes using only a twist and lock motion
- » Range of colours available

Signage for Walls and Floors

Signage for Walls and Floors

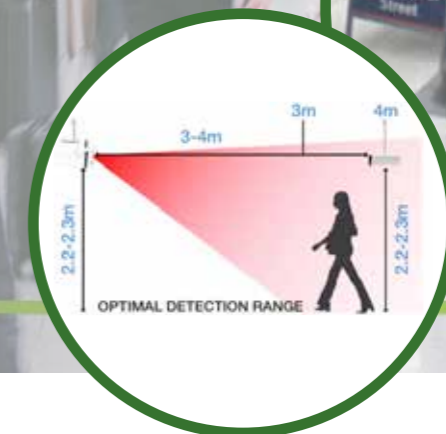

Clear and well placed signage is key to managing social distancing in all areas. Our signage solutions can be tailored to your specific needs and include indoor and outdoor signage, floor/window stickers, wall signs and free standing signage.

So whether it's a temporary fix or a more long term solution we can assist with the design and installation of all your signage.

Body Temperature Detection Systems

INSTANT BODY TEMPERATURE DETECTION SYSTEM.

Body Temperature Detection Systems

The body temperature detection system can accurately detect facial temperatures of up to 40 people at once with an accuracy of 0.03, this is ideal for monitoring body temperatures at entrances to events, transport hubs and buildings.

Utilising this system reduces the need for single file detection and speeds up the flow of people passing through the area further reducing the risk of transmission.

The system is unobtrusive and quick to install providing peace of mind in high traffic areas.

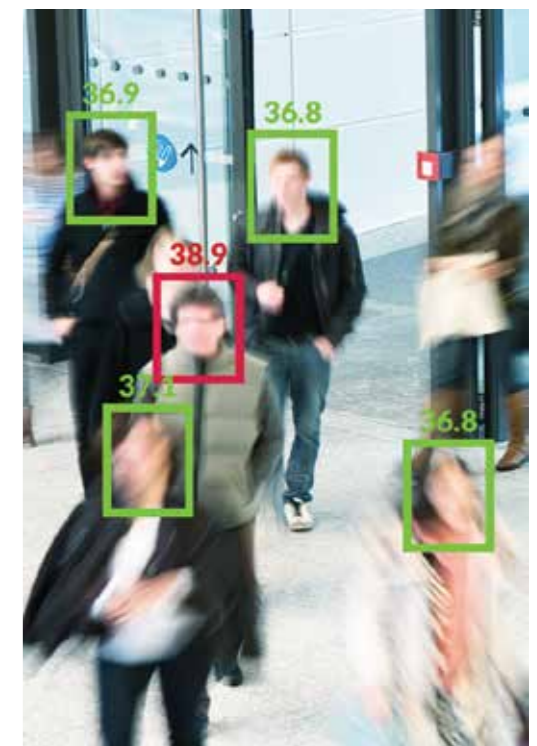

- » Fast temperature measurement
- » High accuracy
- » Non-contact detection
- » License free software

Temperature Calibrator

Camera

Hygienic Wall Panels and Safety Flooring

Hygienic Wall Panels and Safety Flooring

Walls and floors with traditional coverings and finishes can be hard to get hygienically clean. By installing hygienic wall panels and replacing carpets with safety flooring you can be sure all of your surfaces are hygienically clean and safe.

- » Easy to install
- » Available in many colours to suit your environment
- » Durable
- » Easy to clean

Health and safety

The health and safety of our people, our clients and the general public is of paramount importance to us. For this reason, we make health and safety everyone's business.

Managing Safety

Our company's Health and Safety Department is managed by highly qualified and experienced members of staff who deliver a high level of internal training from regular toolbox talks to IOSH Managing Safety Courses.

We have a Health and Safety committee made-up of employees from all areas of the business including trade operatives. The committee meets regularly to discuss all aspects of Health and Safety including topics such as site safety, fleet safety, mental wellbeing and caring for the environment.

Preventing the spread of Covid-19

In order to combat and reduce the spread of Covid-19 and to provide a safe working environment for everyone, Princebuild have implemented safe working procedures in accordance with guidelines issued by Public Health England and include but are not limited to:

- Implementing social distancing measures on site and within our offices
- Introducing enhanced safe systems of work, PPE measures and sanitisation facilities
- Reviewing procedures for working within occupied properties
- Inducting our entire workforce, contractors and visitors to site on the new measures introduced due to Covid-19

Our company has the following Health and Safety and Environmental accreditations:

- OHSAS 18001 (Health and Safety Management)
- CHAS (Contractors Health and Safety Assessment Scheme)
- Safecontractor Approved
- ISO 14001 (Environmental Management)

Why choose Princebuild?

Whether it's because our company offers a professional, friendly service or because our clients know we have the right tools to get the job done, our customers return to us time and time again.
